[Are XP<sub>LS</sub> and XPC<sub>LS</sub> fed at the same rates as XP and XPC?](#)

*Question:* What is OMRI?

*Answer:* The Organic Materials Review Institute (OMRI) is a third party independent agency that reviews and evaluates brand name products for use in USDA National Organic Program (NOP) certified organic production. For more information on OMRI, see <http://www.OMRI.org>.

*Question:* What has the OMRI listing done for Diamond V?

*Answer:* XP<sub>LS</sub> and XPC<sub>LS</sub> are now OMRI listed. OMRI determined that XP<sub>LS</sub> and XPC<sub>LS</sub> are suitable for use in organic livestock rations.

*Question:* What does OMRI listing mean?

*Answer:* OMRI listing means that Diamond V can use the OMRI Listed<sup>®</sup> seal on the XP<sub>LS</sub> and XPC<sub>LS</sub> labeling and marketing materials. Listed products are also included on the OMRI Product Listed web site.

*Question:* Is this organic certification?

*Answer:* No. Only an USDA accredited certifying agency can certify products under the USDA National Organic Program (NOP).

*Question:* Does this apply to other Diamond V products?

*Answer:* No. The OMRI listing only applies to XP<sub>LS</sub> and XPC<sub>LS</sub>.

*Question:* Where can customers purchase XP<sub>LS</sub> and XPC<sub>LS</sub>?

*Answer:* Nutra Blend will carry both products, [to order direct call 1-800-657-5657](tel:1-800-657-5657).

*Question:* Is OMRI listing renewed annually or is it permanent?

*Answer:* OMRI listing is renewed annually, or if a manufacturing procedure or input changes.

*Question:* Does this mean that XP<sub>LS</sub> and XPC<sub>LS</sub> are "GMO free"?

*Answer:* XP<sub>LS</sub> and XPC<sub>LS</sub> are manufactured with non-GMO grains.

*Question:* Are XP<sub>LS</sub> and XPC<sub>LS</sub> fed at the same rates as XP and XPC?

*Answer:* Yes. They are used at the same recommended feeding rates. The regular XP and XPC are interchangeable with their "LS" counterparts in the ration.
