

SelenoSourceTM AF 2000

SelenoSource AF 2000 is a premium selenium yeast product of which a major component is selenomethionine. The selenomethionine form of selenium is natural and rapidly metabolized within the body to yield high bioavailability and retention. Organic selenium is more biologically available than sodium selenite or sodium selenate, the two inorganic forms of selenium commonly used in the feed industry today. Selenium in SelenoSource AF 2000 is an essential nutrient for all classes of chickens, turkeys, swine, beef cattle, dairy cattle, sheep, goats, llamas, alpacas, horses, and dogs.

Ingredients Selenium yeast.

Typical Analysis – (as fed basis)

Crude Protein	48.0%
Crude Fat	0.6%
Crude Fiber	0.9%
Calcium	0.3%
Phosphorus	1.0%
Selenium	2000 ppm (mg/kg)
Organic selenium	98% of total selenium

Color Light tan

Texture Free-flowing powder

Aroma Yeast

Package 55 lbs. (25 kg) multi-layer bag

Bulk Density Approximately 34 lbs/cu ft.

Storage Avoid exposure to sunlight and store in a dry, cool place.

Shelf Life Stable for 24 months after manufacture date while under proper storage conditions in original container.

Caution: Follow label directions. The addition to feed of higher levels of this premix containing selenium is not permitted. Excess feeding and prolonged exposure to selenium is potentially toxic to animals and humans. Use only in accordance with label directions and employ all protective measures indicated in the Material Safety Data Sheet (MSDS). An MSDS for SelenoSourceTM AF is available from Diamond V.
