

SelenoSource[™] AF 600

SelenoSource AF 600 is a premium selenium yeast product of which a major component is selenomethionine. The selenomethionine form of selenium is natural and rapidly metabolized within the body to yield high bioavailability and retention. Organic selenium is more biologically available than sodium selenite or sodium selenate, the two inorganic forms of selenium commonly used in the feed industry today. Selenium in SelenoSource AF 600 is an essential nutrient for all classes of chickens, turkeys, swine, beef cattle, dairy cattle, sheep, goats, llamas, alpacas, horses, and dogs.

Ingredients Roughage products, selenium yeast, calcium carbonate, and mineral oil.

Typical Analysis – (as fed basis)

Crude Protein	25.0%
Crude Fat.....	3.0%
Crude Fiber	5.5%
Calcium.....	0.2%
Phosphorus.....	0.9%
Selenium	600 ppm (mg/kg)
Organic selenium	98% of total selenium

Color Tan.

Texture Free-flowing powder.

Aroma Neutral.

Package 50 lbs. (22.7 kg) lined paper bag.

Bulk Density Approximately 32 lbs/cu ft.

Storage Avoid exposure to sunlight and store in a dry, cool place.

Shelf Life Stable for 24 months after manufacture date while under proper storage conditions in original container.

Caution: Follow label directions. The addition to feed of higher levels of this premix containing selenium is not permitted. Excess feeding and prolonged exposure to selenium is potentially toxic to animals and humans. Use only in accordance with label directions and employ all protective measures indicated in the Material Safety Data Sheet (MSDS). An MSDS for SelenoSource[™] AF 600 is available from Diamond V.
