

SelenoSource™ AF 2000

SelenoSource AF 2000 is a selenium yeast product of which a major component is selenomethionine. The selenomethionine form of selenium is natural and rapidly metabolized within the body to yield high bioavailability and retention. Organic selenium is more biologically available than sodium selenite or sodium selenate, the two inorganic forms of selenium commonly used in the feed industry today. Selenium in SelenoSource AF is an essential nutrient for all classes of livestock and poultry.

Ingredients Selenium-enriched yeast.

Typical Analysis – (as fed basis)

Crude Protein	48.0%
Crude Fat	0.6%
Crude Fiber	0.9%
Calcium	0.3%
Phosphorus.....	1.0%
Selenium	2000 ppm (mg/kg)

Feeding Instructions

Mix SelenoSource AF 2000 at the following rates to formulate a premix. The resulting premix shall then be added to provide the desired concentration of added selenium in the final feed or supplement. Be sure to follow all legal guidelines regarding the maximum allowable level of supplemental selenium for each specie.

Desired Selenium Concentration	SelenoSource AF per 1000 kg premix
200 ppm	100 kg
300 ppm	150 kg
400 ppm	200 kg
500 ppm	250 kg
600 ppm	300 kg

- Color** Light tan
- Texture** Free-flowing powder
- Aroma** Yeast
- Package** 25 kg (55 lbs) multi-layer bag
- Bulk Density** Approximately 550 grams/liter.
- Storage** Avoid exposure to sunlight and preserve in a dry, cool place.
